TOXICOLOGY

SUBJECT INDEX

Volume 60 (1990)

active oxygen species, asbestos, alveolar macrophages, lung fibroblasts, tracheobronchial epithelium, superoxide, 53
acute inflammation, nasal lavage, inhaled pollutants, 15
acute toxicity, cadmium, molybdenum, metallothionein, 235
airway inflammation, bronchoalveolar lavage, chemotaxis, epithelial cells, injury, repair, 5
alkaline phosphatase, nephrotoxicity, calcium metabolism, bone morphometry, lindane, 99
alveolar macrophages, asbestos, lung fibroblasts, tracheobronchial epithelium, superoxide, active oxygen species, 53
antibody production, 3-methylcholanthrene, carcinogen, cell-mediated responses, 263
asbestos, alveolar macrophages, lung fibroblasts, tracheobronchial epithelium, superoxide, active oxygen species, 53

birds, cadmium, copper, liver, kidney, metallothionein synthesis, zinc, 151
bone morphometry, nephrotoxicity, calcium metabolism, lindane, alkaline phosphatase, 99
bronchoalveolar lavage, chemotaxis, epithelial cells, airway inflammation, injury, repair, 5

cadmium, birds, copper, liver, kidney, metallothionein synthesis, zinc, 151
cadmium, copper, zinc, metallothionein, pregnancy, lactation, HPLC-ICP, 199
cadmium, cytotoxicity, membrane potential, mitochondria, hepatocytes, 161
cadmium, molybdenum, acute toxicity, metallothionein, 235
cadmium, tissue distribution, excretion, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-isopropylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
calcium metabolism, nephrotoxicity, bone morphometry, lindane, alkaline phosphatase, 99
carcinogen, 3-methylcholanthrene, antibody production, cell-mediated responses, 263
carcinogenesis, DNA adducts, diesel exhaust, lung, F344 rats, 127
catalase, renal cystogenesis, expoxide hydrolase, diphenylthiazole, 211
cathinone, khat, reproductive toxicity, testosterone, 223
cell-mediated responses, 3-methylcholanthrene, carcinogen, antibody production, 263
chelating effect, cadmium, tissue distribution, excretion, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-isopropylbenzyl-D-glucamine dithiocarbamate, 275
chemical carcinogenesis, enzyme induction, cytochrome *P*-450, mixed-function oxidases, polycyclic aromatic hydrocarbons, 173
chemotaxis, bronchoalveolar lavage, epithelial cells, airway inflammation, injury, repair, 5
cisplatin, nephrotoxicity, diabetes mellitus, streptozotocin, Fischer 344 rats, 109
copper, birds, cadmium, liver, kidney, metallothionein synthesis, zinc, 151
copper, cadmium, zinc, metallothionein, pregnancy, lactation, HPLC-ICP, 199
cytochrome *P*-450, enzyme induction, mixed-function oxidases, polycyclic aromatic hydrocarbons, chemical carcinogenesis, 173
cytotoxicity, cadmium, membrane potential, mitochondria, hepatocytes, 161

diabetes mellitus, cisplatin, nephrotoxicity, streptozotocin, Fischer 344 rats, 109
diesel exhaust, DNA adducts, lung, F344 rats, carcinogenesis, 127
diphenylthiazole, renal cystogenesis, catalase, expoxide hydrolase, 211

DNA adducts, diesel exhaust, lung, F344 rats, carcinogenesis, 127
DNA adducts, 6-nitrochrysene, nitro-polycyclic aromatic hydrocarbons, intestinal microflora, 137

enzyme induction, cytochrome *P*-450, mixed-function oxidases, polycyclic aromatic hydrocarbons, chemical carcinogenesis, 173
epithelial cells, bronchoalveolar lavage, chemotaxis, airway inflammation, injury, repair, 5
excretion, cadmium, tissue distribution, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N*-*p*-isopropylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
expoxide hydrolase, renal cystogenesis, catalase, diphenylthiazole, 211

F344 rats, DNA adducts, diesel exhaust, lung, carcinogenesis, 127
fatty acids, induction, polychlorinated biphenyls, microsomes, vitamin A, 253
Fischer 344 rats, cisplatin, nephrotoxicity, diabetes mellitus, streptozotocin, 109
γ-glutamyltranspeptidase, inorganic mercury, kidney, incorporation, glutathione, toxicity, 187
glutathione, inorganic mercury, kidney, incorporation, γ-glutamyltranspeptidase, toxicity, 187
growth factors, type II cell, radiation, hyperoxia, pulmonary surfactant, secretion, 41

hepatocytes, cadmium, cytotoxicity, membrane potential, mitochondria, 161
HPLC-ICP, cadmium, copper, zinc, metallothionein, pregnancy, lactation, 199
hyperoxia, type II cell, radiation, growth factors, pulmonary surfactant, secretion, 41

incorporation, inorganic mercury, kidney, γ-glutamyltranspeptidase, glutathione, toxicity, 187
induction, polychlorinated biphenyls, microsomes, fatty acids, vitamin A, 253
inhaled pollutants, nasal lavage, acute inflammation, 15
injury, bronchoalveolar lavage, chemotaxis, epithelial cells, airway inflammation, repair, 5
inorganic mercury, kidney, incorporation, γ-glutamyltranspeptidase, glutathione, toxicity, 187
intestinal microflora, 6-nitrochrysene, nitro-polycyclic aromatic hydrocarbons, DNA adducts, 137

khat, cathinone, reproductive toxicity, testosterone, 223
kidney, birds, cadmium, copper, liver, metallothionein synthesis, zinc, 151
kidney, inorganic mercury, incorporation, γ-glutamyltranspeptidase, glutathione, toxicity, 187

lactation, cadmium, copper, zinc, metallothionein, pregnancy, HPLC-ICP, 199
lindane, nephrotoxicity, calcium metabolism, bone morphometry, alkaline phosphatase, 99
liver, birds, cadmium, copper, kidney, metallothionein synthesis, zinc, 151
lung, DNA adducts, diesel exhaust, F344 rats, carcinogenesis, 127
lung, thiourea, protein, 245
lung fibroblasts, asbestos, alveolar macrophages, tracheobronchial epithelium, superoxide, active oxygen species, 53

membrane potential, cadmium, cytotoxicity, mitochondria, hepatocytes, 161
metallothionein, cadmium, copper, zinc, pregnancy, lactation, HPLC-ICP, 199
metallothionein, cadmium, molybdenum, acute toxicity, 235
metallothionein synthesis, birds, cadmium, copper, liver, kidney, zinc, 151
3-methylcholanthrene, carcinogen, antibody production, cell-mediated responses, 263
microsomes, induction, polychlorinated biphenyls, fatty acids, vitamin A, 253
mitochondria, cadmium, cytotoxicity, membrane potential, hepatocytes, 161
mixed-function oxidases, enzyme induction, cytochrome *P*-450, polycyclic aromatic hydrocarbons, chemical carcinogenesis, 173
molybdenum, cadmium, acute toxicity, metallothionein, 235

nasal lavage, acute inflammation, inhaled pollutants, 15

nephrotoxicity, calcium metabolism, bone morphometry, lindane, alkaline phosphatase, 99
nephrotoxicity, cisplatin, diabetes mellitus, streptozotocin, Fischer 344 rats, 109
nitro-polycyclic aromatic hydrocarbons, 6-nitrochrysene, intestinal microflora, DNA adducts, 137
6-nitrochrysene, nitro-polycyclic aromatic hydrocarbons, intestinal microflora, DNA adducts, 137

polychlorinated biphenyls, induction, microsomes, fatty acids, vitamin A, 253
polycyclic aromatic hydrocarbons, enzyme induction, cytochrome *P*-450, mixed-function oxidases, chemical carcinogenesis, 173
pregnancy, cadmium, copper, zinc, metallothionein, lactation, HPLC-ICP, 199
protein, thiourea, lung, 245
pulmonary surfactant, type II cell, radiation, hyperoxia, growth factors, secretion, 41

radiation, type II cell, hyperoxia, growth factors, pulmonary surfactant, secretion, 41
renal cystogenesis, catalase, expoxide hydrolase, diphenylthiazole, 211
repair, bronchoalveolar lavage, chemotaxis, epithelial cells, airway inflammation, injury, 5
reproductive toxicity, cathinone, khat, testosterone, 223
respiratory carcinogenesis, tracheal implants, toxicology methods, 27

secretion, type II cell, radiation, hyperoxia, growth factors, pulmonary surfactant, 41
sodium *N*-benzyl-D-glucamine dithiocarbamate, cadmium, tissue distribution, excretion, sodium *N-p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N-p*-isopropylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
sodium *N-p*-isopropylbenzyl-D-glucamine dithiocarbamate, cadmium, tissue distribution, excretion, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N-p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N-p*-methylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
sodium *N-p*-methylbenzyl-D-glucamine dithiocarbamate, cadmium, tissue distribution, excretion, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N-p*-isopropylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
streptozotocin, cisplatin, nephrotoxicity, diabetes mellitus, Fischer 344 rats, 109
superoxide, asbestos, alveolar macrophages, lung fibroblasts, tracheobronchial epithelium, active oxygen species, 53

testosterone, cathinone, khat, reproductive toxicity, 223
thiourea, lung, protein, 245
tissue distribution, cadmium, excretion, sodium *N*-benzyl-D-glucamine dithiocarbamate, sodium *N-p*-methylbenzyl-D-glucamine dithiocarbamate, sodium *N-p*-isopropylbenzyl-D-glucamine dithiocarbamate, chelating effect, 275
toxicity, inorganic mercury, kidney, incorporation, γ-glutamyltranspeptidase, glutathione, 187
toxicology information, 67
toxicology methods, tracheal implants, respiratory carcinogenesis, 27
tracheal implants, toxicology methods, respiratory carcinogenesis, 27
tracheobronchial epithelium, asbestos, alveolar macrophages, lung fibroblasts, superoxide, active oxygen species, 53
type II cell, radiation, hyperoxia, growth factors, pulmonary surfactant, secretion, 41

vitamin A, induction, polychlorinated biphenyls, microsomes, fatty acids, 253

zinc, birds, cadmium, copper, liver, kidney, metallothionein synthesis, 151
zinc, cadmium, copper, metallothionein, pregnancy, lactation, HPLC-ICP, 199

Toxicology, 60 (1990) 299—300
